Examination of Application #10/065,923

1. Claims 32-49 of application 10/065,923, filed on 30-November-2002, are pending in the application. Claims 29-31 were cancelled by the amendment received on 29-May-2006. Claims 11-28 were cancelled by the amendment received on 30-January-2006, Claims 1-10 were cancelled by the preliminary amendment received on 29-August-2003.

2. An examination of this application reveals that applicant is unfamiliar with patent prosecution procedure, especially in view of the proper grammatical and punctuation construction of the claim format. While an inventor may prosecute the application, lack of skill in this field usually acts as a liability in affording the maximum protection for the invention disclosed. Applicant is advised to secure the services of a registered patent attorney or agent to prosecute the application, since the value of a patent is largely dependent upon skilled preparation and prosecution. The Office cannot aid in selecting an attorney or agent.

A listing of registered patent attorneys and agents is available on the USPTO Internet web site <http://www.uspto.gov> in the Site Index under "Attorney and Agent Roster." Applicants may also obtain a list of registered patent attorneys and agents located in their area by writing to the Mail Stop OED, Director of the U. S. Patent and Trademark Office, PO Box 1450, Alexandria, VA 22313-1450

Claim Objections under 37 CFR 1.75(d)(1)

3. Claims 32-49, currently shown as claims 29-46, are objected to under 37 CFR 1.75(d)(1), wherein the numbering of the claims appears to be incorrect in regard to the various claim

In re Application of: Fujisaki

cancellations noted above. As can be best ascertained by the Examiner, independent claims 32-34 and dependent claims 35-49 are pending.

Also, the phrase "one or more of arm joint wrinkles" is understood by the Examiner to mean "one or more arm joint wrinkles" [see claims 32-49, sometimes more than once in the independent claims].

Claim Rejections under 35 U.S.C. § 112, 2nd Paragraph

4. Claims 32 (currently 29) and 34 (currently 31) are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The phrase "said wrinkle of a second length" lacks antecedent basis.

Allowed Claims

5. Claims 32-49 (currently 29-46) are deemed allowable over the prior art of record at this time, pending resolution of any rejections noted above, because the prior art does not disclose the claimed method for displaying arm joint wrinkles.
